

Toronto Metropolitan University English Language Institute

The Toronto Metropolitan University English Language Institute (ELI) is a leader in high-quality English language programming. We provide an ideal starting point for students to achieve academic and personal success, offering English upskilling through pathway programs that help students meet the language requirements for TMU's undergraduate programs.

Choose your pathway:

ESL Foundation Program (Two terms)

5.0 IELTS/ Duolingo 80-90

- 32 Week Program
- Tuition includes two university degree credit courses
- 25 hours of instruction per week

Pre-English Boost + English Boost

5.5 IELTS/ Duolingo 95-100

- 16 Week Program
- Build your reading, writing, listening, and speaking skills with 20-30 hours of classroom activity weekly

English Boost

6.0 IELTS/ Duolingo 105-115

- 8 Week Program
- 30 weekly hours of blended learning to build your reading, writing, listening and speaking skills in an accelerated time frame

ESL Foundation Program (One term)

6.0 IELTS/ Duolingo 105-115

- 16 Week Program
- Tuition includes one university degree credit course
- 25 hours of instruction per week

My time at the English Language Institute was transformative. The supportive and experienced instructors made learning English an enjoyable journey for me.

 ELI Pathway: ESL Foundation
 Undergraduate Program: Graphic Communications Management

Our Student Experience

At the ELI, we go beyond your traditional English language programming. We help students transition into their life in Canada and support them in making connections both inside and outside of the classroom. We build leadership skills through our mentorship program, experiential learning activities, student-led workshops and the work-study opportunities we offer.

Global Curriculum

Our curriculum is designed based on the UN's Sustainable Development Goals (SDGs). With a focus on SDGs, we position our language institute as a global institute and not just a North American one. Our global curriculum provides students with an opportunity to learn how to develop solutions to real-world problems as they connect their undergraduate program as well as lived experiences to the SDG themes and sub-themes taught in the classroom.
